REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: ✓

The claims are allowed because the cited prior art do not teach or fairly suggest the combination of method steps as claimed. While each of the references 1, 3, 4, 7, and 16 from the information disclosure statement filed 5/24/2006 teaches domain inversion by electric field poling of a sample of lithium niobate, they fail to teach or fairly suggest applying a layer of metallic zinc to a z-face of lithium niobate for forming a waveguiding structure. While references 10, 17 each teaches a layer of metallic zinc to a z-face of lithium niobate, they fail to teach or fairly suggest using a sample of lithium niobate whose domain inversion is by electric field poling.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Quyen P. Leung whose telephone number is (571) 272-8188. The examiner can normally be reached on normally M-F, 6:15 am - 2:45 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rodney Bovernick can be reached on (571) 272-2344. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
